

Dear Fishing Friends,

in the year 2020 we are **introducing** some new features at the Slovenian Fisheries Research Institute. Due to the transition to cashless operations, the introduction of more accurate records of the number of fishermen present in individual rivers and better management overall, we're **switching to digital** daily and yearly licensing system.

In addition, in 2020, **current annual license holders** will exceptionally be allowed to purchase physical annual licenses **in paper form**.

If you are our regular customer and interested in a particular yearly permit, please send us an e-mail (info@zzrs.si) or call us (0038612443400) and we will prepare an offer with detailed instructions.
